PRECAUTIONARY BOIL WATER ADVISORY IN EFFECT ON THE MUNICIPAL AQUEDUCT SYSTEM

Chelsea, December 3, 2025 – The Municipality of Chelsea wishes to inform the public that a precautionary boil-water advisory is currently in effect for residents served by the water system.

All Chelsea residents served by the municipal water system are required to boil their water for at least one minute before consumption until the advisory is lifted.

Water Use

Boiled or bottled water should be used to prepare formula, bottles, and baby food; wash vegetables and fruit that will be eaten raw; prepare beverages (including coffee); brush teeth; and rinse mouths. Please discard all food, including ice, prepared with tap water after the date and time of this advisory. It is also recommended that you give your pets previously boiled and cooled water.

As soon as the situation is restored, communications will be issued and information shared on the Municipality's platforms to inform citizens.
